

CPS COVID 19 RESPONSE PLAN

As a school, we are committed to ensure all students and families are safe, and supported and if required, students will be able to continue their learning at home.

We recognise that a COVID-19 case and/or [close contact](#) of a positive case may disrupt student routines and we have been working on our plans to maintain learning for all students in the light of positive cases in our school community.

The [Carramar Primary School COVID-19 Action Plan 2022](#) will ensure all our families understand how we will support all of our staff, students and families when this occurs.

If a positive COVID 19 case is reported to the school, we will make necessary decisions with regard to the Teaching and Learning Program for the cohort/s impacted and inform the community of the learning arrangements for those cohorts.

In the first instance this will include:

1. Learning from Home hard copy work package for all students in the identified cohort/s.
2. Online Learning from Home Connect Classrooms (If the cohort is impacted further)

PLEASE NOTE:

As we move towards **very high caseloads**, it is important to recognise that your family may become a close contact and be directed to self-isolate for 7 days.

Please refer to [Close Contact Information](#)

If your child is required to isolate and they are well, we encourage you to continue to access our online resources such as Reading Eggs and Mathletics, as well as [Learning from home - Department of Education](#) applicable to their year.

Your child/ren's teacher will contact you to ensure that your child/ren are participating in the learning program.

Thank you for your ongoing support and for looking after and supporting each other.
